

## **JOB DESCRIPTION: JAVA DEVELOPER**

**REF: JD0723**

### **Company**

Software development company is looking for new talent in Pretoria (Far East) to work in the exciting world of satellite imaging. We build cutting-edge software products used by international customers across the globe.

### **Requirements**

- Bachelor's degree in engineering or computer science
- 4+ years of software development experience with strongly typed languages (e.g., Java, C#, etc.).
- Strong knowledge of software patterns and development best practices
- Permanent positions on site

### **Role**

#### *Development and design*

- Day-to-day Java and web front-end development.
- Work on new and existing products and product eco-systems in a distributed environment that includes online portals, web applications, server software, and web services with secure communication on-premises and in the cloud.
- Help with the design of new systems that allow for release of minimum features while keeping future requirements and extensions in mind.
- Work with the complexities of large code bases with modular designs.
- Work together with the Tech Lead to design and implement new solutions and improvements
- Collaborate with the Project Manager to plan milestones, provide project breakdowns, and prioritise development activities.
- Mentor junior software developers.
- Stay up to date with new technologies in your field.

#### *Testing and support*

- Write well-designed, testable code
- Test and troubleshoot software
- Mentor junior software developers and perform code reviews
- Prepare releases
- Provide technical support to the Support teams
- Compile technical and user documentation

## Technologies

- Java, Spring Framework
- Angular, Typescript
- RESTful Web Services, message queues
- SQL and No-SQL Databases

## You will need to be:

- Excited about technology
- Comfortable working in a dynamic environment
- Analytical, critical thinker, creative problem solver
- Love building software

To apply, please submit your resume and a cover letter detailing your relevant experience and why you believe you are the ideal candidate for this position to [jobs@pinkmatter.com](mailto:jobs@pinkmatter.com) (Ref: **JD0723**)
